MEETING DATE: June 17, 2014

REQUESTED ACTION: Council consider a resolution approving an annual contract for the purchase of wastewater treatment polymer from Hercules, Inc., of Wilmington, Delaware, in the estimated amount of \$70,000 for use by the Water Utilities Department.

BACKGROUND

Bids were requested for an annual contract to provide polyacrylamide cationic emulsion liquid polymer. This material is used in dewatering of sewage sludge produced by the City filter plant at water reclamation. Six (6) vendors were solicited, two (2) responded. Hercules, Inc. is the current provider of this material and the only vendor to submit a valid bid. The bid was \$1.40 per pound. It is estimated that approximately 50,000 pounds will be required for sewage treatment during the next twelve (12) months.

A condition of the specification required vendors to submit samples of their material for testing prior to bid opening. The second vendor, Veolia Water Solutions, Inc., failed to submit to testing and is rejected.

There are no local vendors providing this material. The current contract pricing is \$1.40 per pound resulting in no increase in the cost of the material.

Consider approving a resolution authorizing the award of four, one-year contracts for the purchase of inventory materials for use in the Water Utilities Department

City Council Agenda Item

TO: City Council

FROM: Kyle Hayes, City Manager

PREPARED BY: Laura Clark, Chief Financial Officer 

MEETING DATE: June 17, 2014

REQUESTED ACTION: Council consider a resolution approving the award of four (4), one (1) year contracts for the purchase of inventory materials in the total estimated amount of \$1,324,485.93, for use in the Water Utilities Department.

BACKGROUND

Bids were received from five (5) vendors for an annual contract for couplings, pipe fittings, valves, fire hydrants and other related materials for use by the Water Utilities Department. The materials are used in the repair and maintenance of existing water and sewer lines and installation of new service lines in order to maintain adequate water and sewer service throughout the City.

Specifications required bidders to submit pricing for 216 line items, separated into fifteen (15) specific sections. Bids were evaluated upon the lowest total price per section on an all or none basis and which provides the best value to the City. Only bidders providing pricing for every item within each section were considered. Pricing is to remain firm for the term of the contract. Specifications also required all bids involving brass materials to quote items that are certified NSF61 lead-free compliant and are of domestic (USA) manufacture.

Bid Section 12, Ductile Iron Valves, will not be awarded due to inaccuracy in the specifications.

The administration recommends award of one (1) year contracts to the following vendors in the amounts indicated; H.D. Supply & Waterworks, Inc., of Beaumont, \$610,856.38; Rural Pipe & Supply, Inc., of Jasper, \$280,566.35; Coburn's Inc., of Beaumont, \$391,495.50; ACT Pipe & Supply, Inc., of Beaumont; \$41,567.70. Bid tabulations are attached.
